

Create a C program to find the maximum of three numbers using a function.

Code-

```
#include <stdio.h>
int maximum(int,int,int);
int main()
{
    int a,b,c;
    printf("Write 3 no.s");
    scanf("%d%d%d",&a,&b,&c);
    maximum(a,b,c);
    return 0;
}

int maximum(int x,int y,int z)
{
    if(x>y&&x>z)
        printf("Maximum no.-%d",x);
    else if(y>x&&y>z)
        printf("Maximum no.-%d",y);
    else printf("Maximum no.-%d",z);
    return 0;
}
```

Input-

Write 3 no.s1

3

2

Output-

Maximum no.-3
